## Vision

The institution endeavours to inculcate students with technical skills, professional ethics and make them socially responsible citizens to cope with the current and upcoming technical challenges faced by our country.

## Mission

The institution imparts quality education and training to empower the students with technical knowledge skills for employability and entrepreneurship with social responsibility.

### From Correspondent's Desk

We impart education to match the advancement in technology and globalization. As Aristotle's words, 'the heart should be educated before the mind is educated; otherwise education is not education at all.' Marching the students ahead with moral values and principles is an important task. I applaud the team members for instilling the necessary qualities, creativity and imagination.

### From Coordinator's Desk

The college follows a unique pedagogy to ensure its students in having the opportunity to face the rigors of the ever-changing demands of real-world situations. It is again supplemented by on-going and regular interaction with business and industry leaders providing the students a practical platform to assess and experience the application and effective results of what is taught as concepts in their classrooms.

### From Secretary's Desk

The biggest challenge we all face today is to prepare the students for a globalized world. In fact students do not have the same talents and so each one will achieve success differently. So the educators being facilitators should find the specific field of interest and encourage the students. And the students should honestly do the best that they can for a successful academic and professional career.

### From Advisor's Desk

Today, we live in a world that is so very different from the one we grew up in, the one we were educated in. The world is changing at such an accelerated pace, and we educators need to pause and reflect on this entire system of education. These are the factors that motivate the students to go through continuous process of reflection.

### From Principal's Desk

It is a matter of great pride and satisfaction to bring out the Newsletter for the period from March 2022 to Dec 2022. The college has made tremendous progress in all areas of academic, non-academic and capacity building relevant to staff and students. This edition of the newsletter reports the significant activities carried out by Students and Faculty in the areas of Teaching and Learning, Co-curricular and Extracurricular.

## Awareness Programme

The NSS Units of CITSPC organized “Police AKKA Awareness Programme” for the girl students, female faculty and female non-teaching staff on 20.10.2022. Nearly 100 female participants were present and they actively took part in the event. The representative police person said that the 'Police Akka' phone numbers will be displayed prominently on college campuses and designated police personnel will meet the students once a week or once in 15 days on campus. Hope is that this step will help students come forward and share their experiences about being bullied and stalked.

## Youth Awakening Day

The NSS units of CITSPC celebrated the Youth Awakening Day on 20.10.2022 with the motto to inspire the youth with the real time incidents that happened in the life of our beloved former President and Scientist, late Dr. A. P. J. Abdul Kalam, who was born on 15.10.1931. With this objective, an oratorical competition was conducted for our students with the title “Inspirations from Dr. APJ Abdul Kalam”. 10 students were shortlisted for the final round which happened on 20.10.2022 and best three were selected for prizes. 120 students were present as audience for this event.

## Social Justice Day

The NSS units of CITSPC celebrated Social Justice Day on 17.09.2022 and 300 students took pledge on this day to ensure Social Justice in our society.
