

Red Ribbon Club

Red Ribbon Club is an international symbol of HIV/AIDS awareness since 1991. The objective of Red Ribbon Club is to create awareness among students on STD/HIV/AIDS and make them effective peer to educators within and outside the campus in collaboration with Tamil Nadu State AIDS control society. Red Ribbon Club (RRC) is a movement started by the government of India in educational institutes through which students would be made aware about AIDS and it stands in support of those who suffer from AIDS. It is a youth initiative on HIV/AIDS. The activities are implemented through the National Service Scheme (NSS) cell by conducting awareness programmes and blood donation camps.
